Insomnia

Migraine

Nervous disorders

Heart disease

High blood pressure

Depression

Mental depression

Effects on small children

Children who live in a noisy environment for a long time often suffer from eye pain, blurred vision and reduced vision, which can also lead to indigestion, loss of appetite, memory loss, poor concentration and other symptoms of neurological weakness. Therefore, noise is a major enemy of children's intellectual and physical development.

Effects on the elderly

Noise seriously affects the health of the elderly, making the adrenal glands secrete more heartbeat accelerates, blood pressure rises, nervousness, easily lead to heart win disease hair; at the same time can make the elderly saliva, gastric juice secretion reduced, gastric acid reduced, thus suffering from gastric ulcer and duodenal ulcer disease, harmful to the cardiovascular system, blood pressure instability, is also an important cause of age-related deafness.

Effects on adults

It can cause temporary and persistent dizziness, headache, insomnia and dreaminess, affect the human nervous system, make people impatient, irritable and nervous and endocrine system disorders. Experiments have shown that when a person is disturbed by a sudden noise, he or she loses 4 seconds of concentration. Noise can cause excessive dreaming, easy to wake up, sleep quality decreases, etc. The impact of sudden noise on sleep is more prominent.

Healthy Sound Environment

Long-term exposure to 70 decibels or more hearing affected and the incidence of myocardial infarction increased by 30%; 80-85 decibels when the performance of headache sleep; 90-100 decibels when emotional agitation; 100-120 decibels when dizziness, insomnia, memory loss; 120-140 decibels when total deafness, ear pain, induced | phobia; 170 decibels or more can cause death.

EASILY QUIET

Sonic Hive at home

So kids and adults don't disturb each other

Mom wants to do housework, children want to study? Home silence booth, the solution to compact space living noise, so that children's concentration is no longer disturbed by the noise of life.

PERFECT BALANCE

Sonic Hive at home

Elder and younger kids have their own great time

Older kids are learning and the second one is making a fuss? Home silence booth, open the silent mode at any time, perfect balance, no noise, just happy!

sonic-hive

NO INTERRUPTION

Sonic Hive at home

The noise next door does not bother you

With home silence pod, neighbors not disturbing each other. Good neighbor relations maintained!

NO DISTRACTION

Sonic Hive at home

Outdoor noise without worries

Can't concentrate on reading in the city with so much traffic? Home silence booth, the noise outside the window will no longer make you crazy demons!

UNLIMITED

Sonic Hive at home

Life mode is not limited

Husband wants to read, but wife wants to live broadcasting? Home silence booth, for the intimate partner to retain the space of their own, dynamic and quiet perfect both!

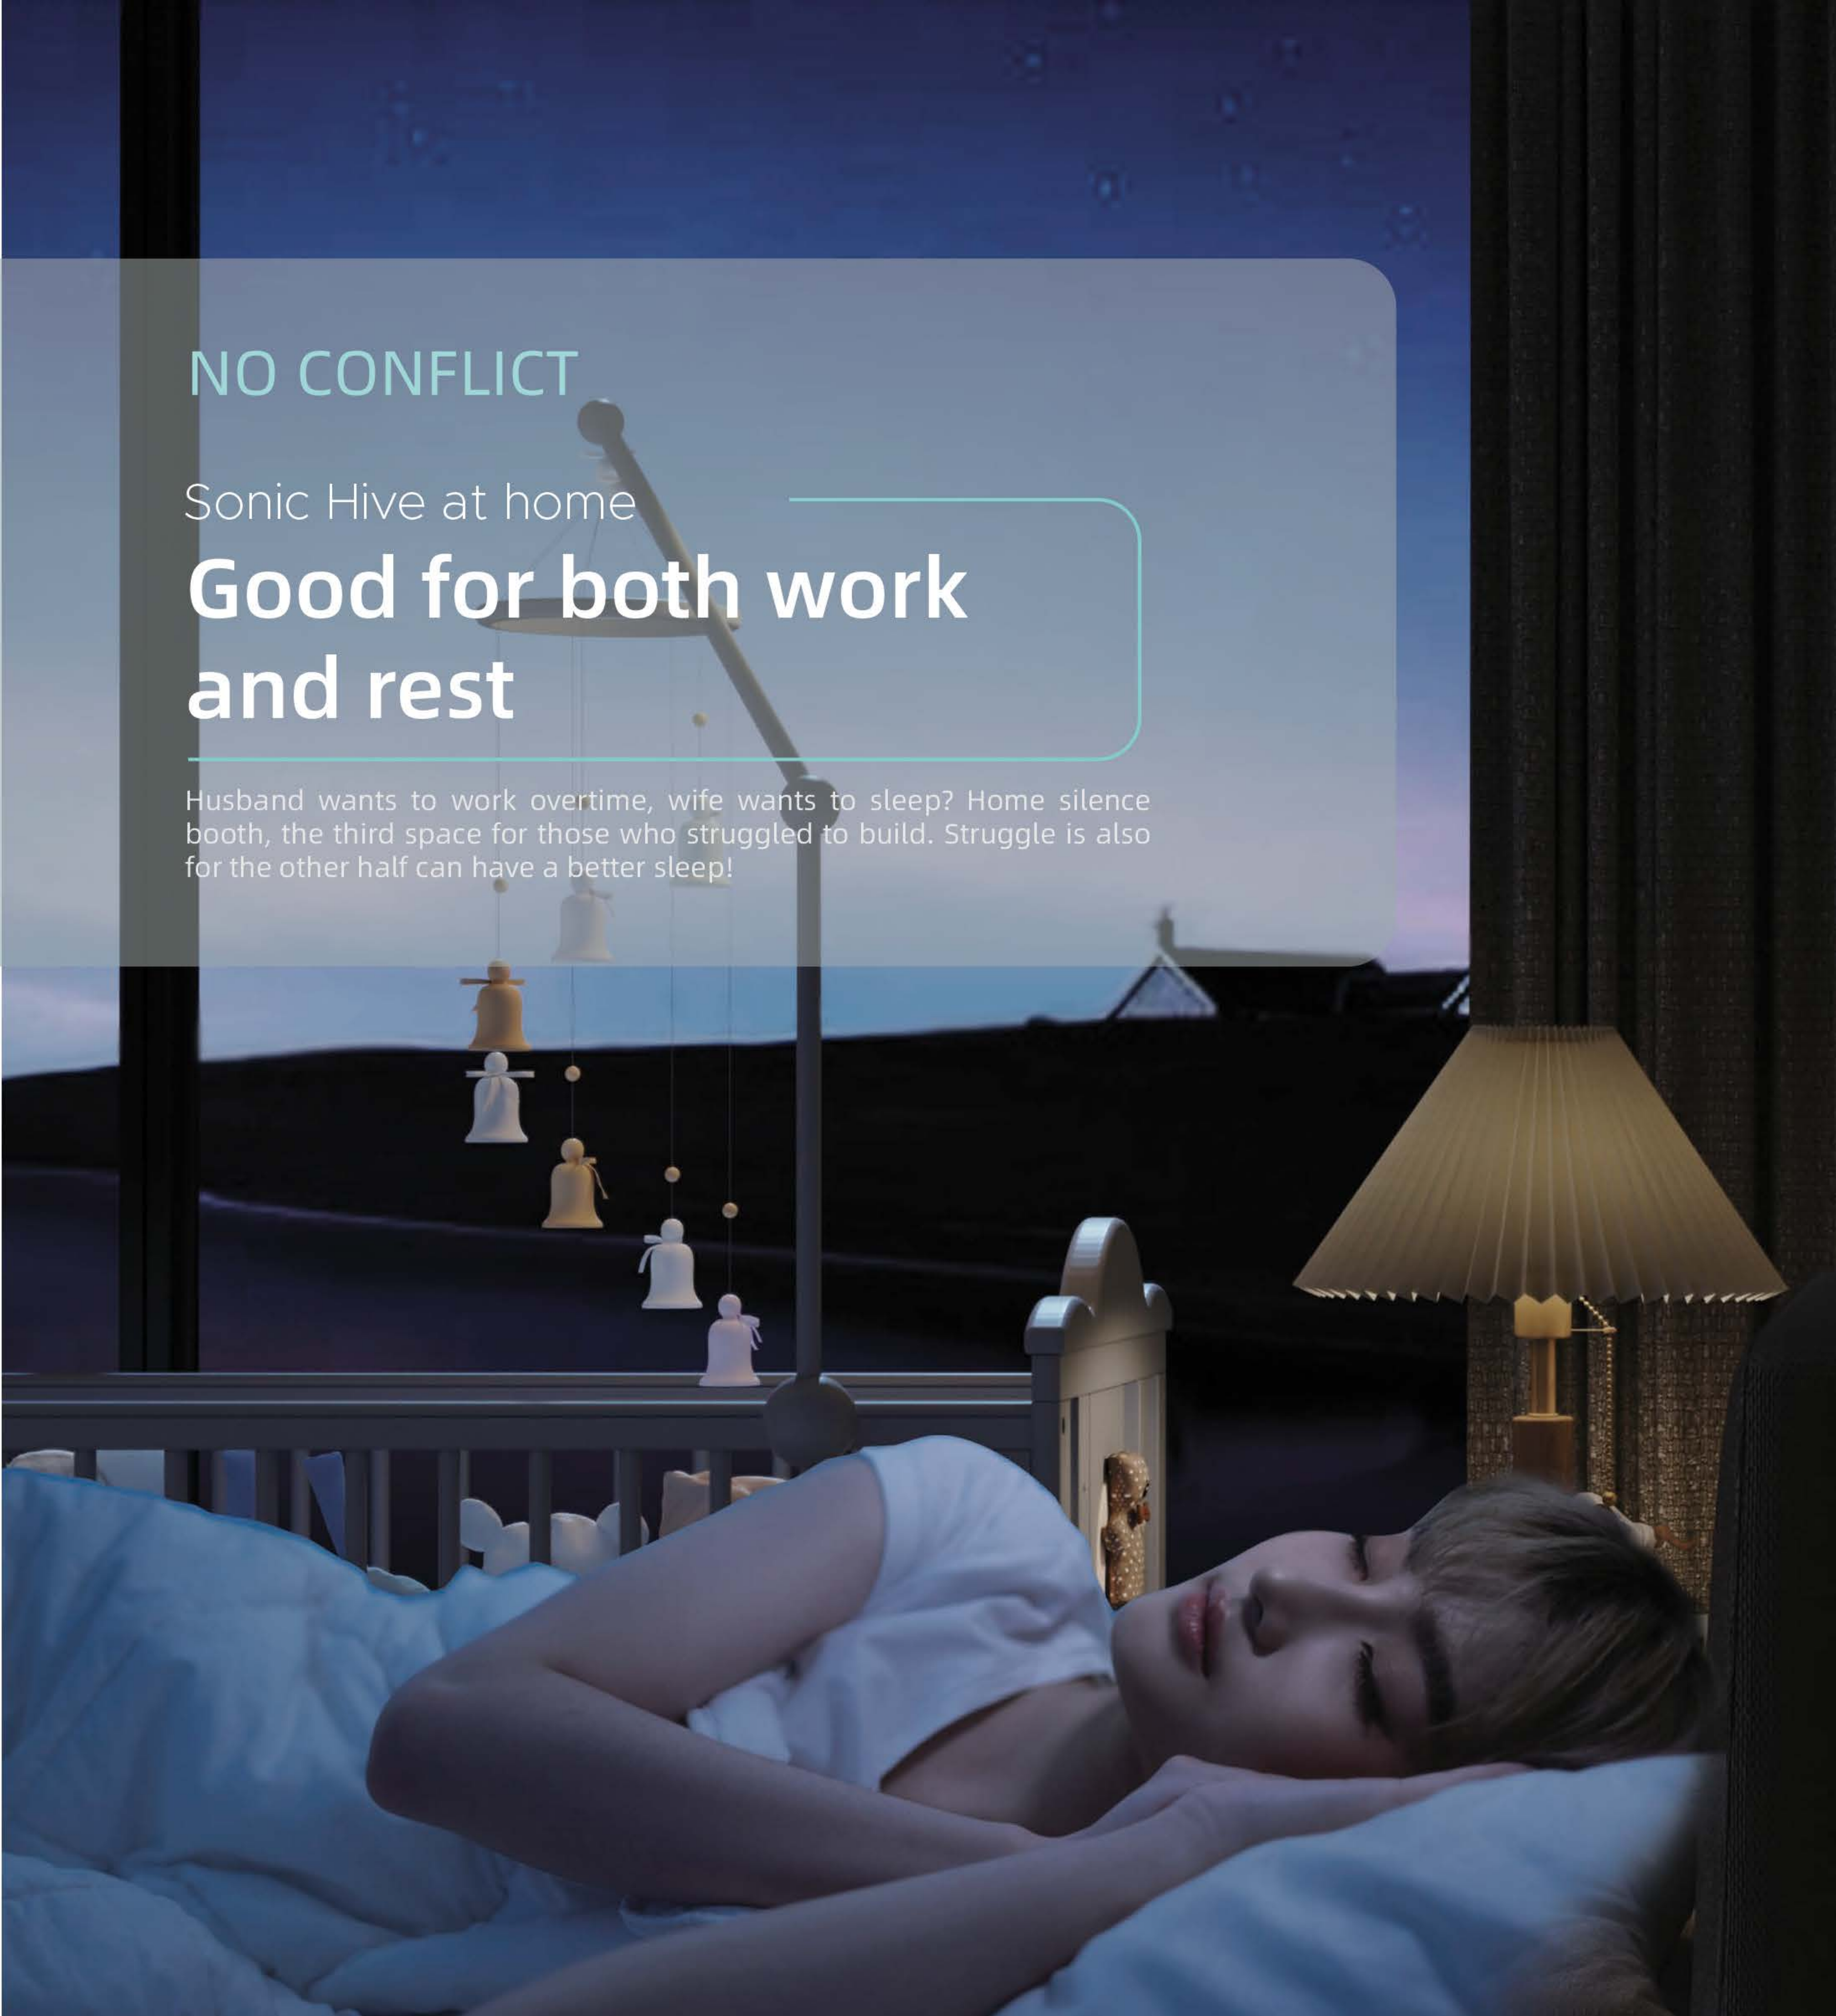

NO CONFLICT

Sonic Hive at home

Good for both work and rest

Husband wants to work overtime, wife wants to sleep? Home silence booth, the third space for those who struggled to build. Struggle is also for the other half can have a better sleep!

Design Elaborate Design

Ceiling ambient light
4000k natural light color temperature

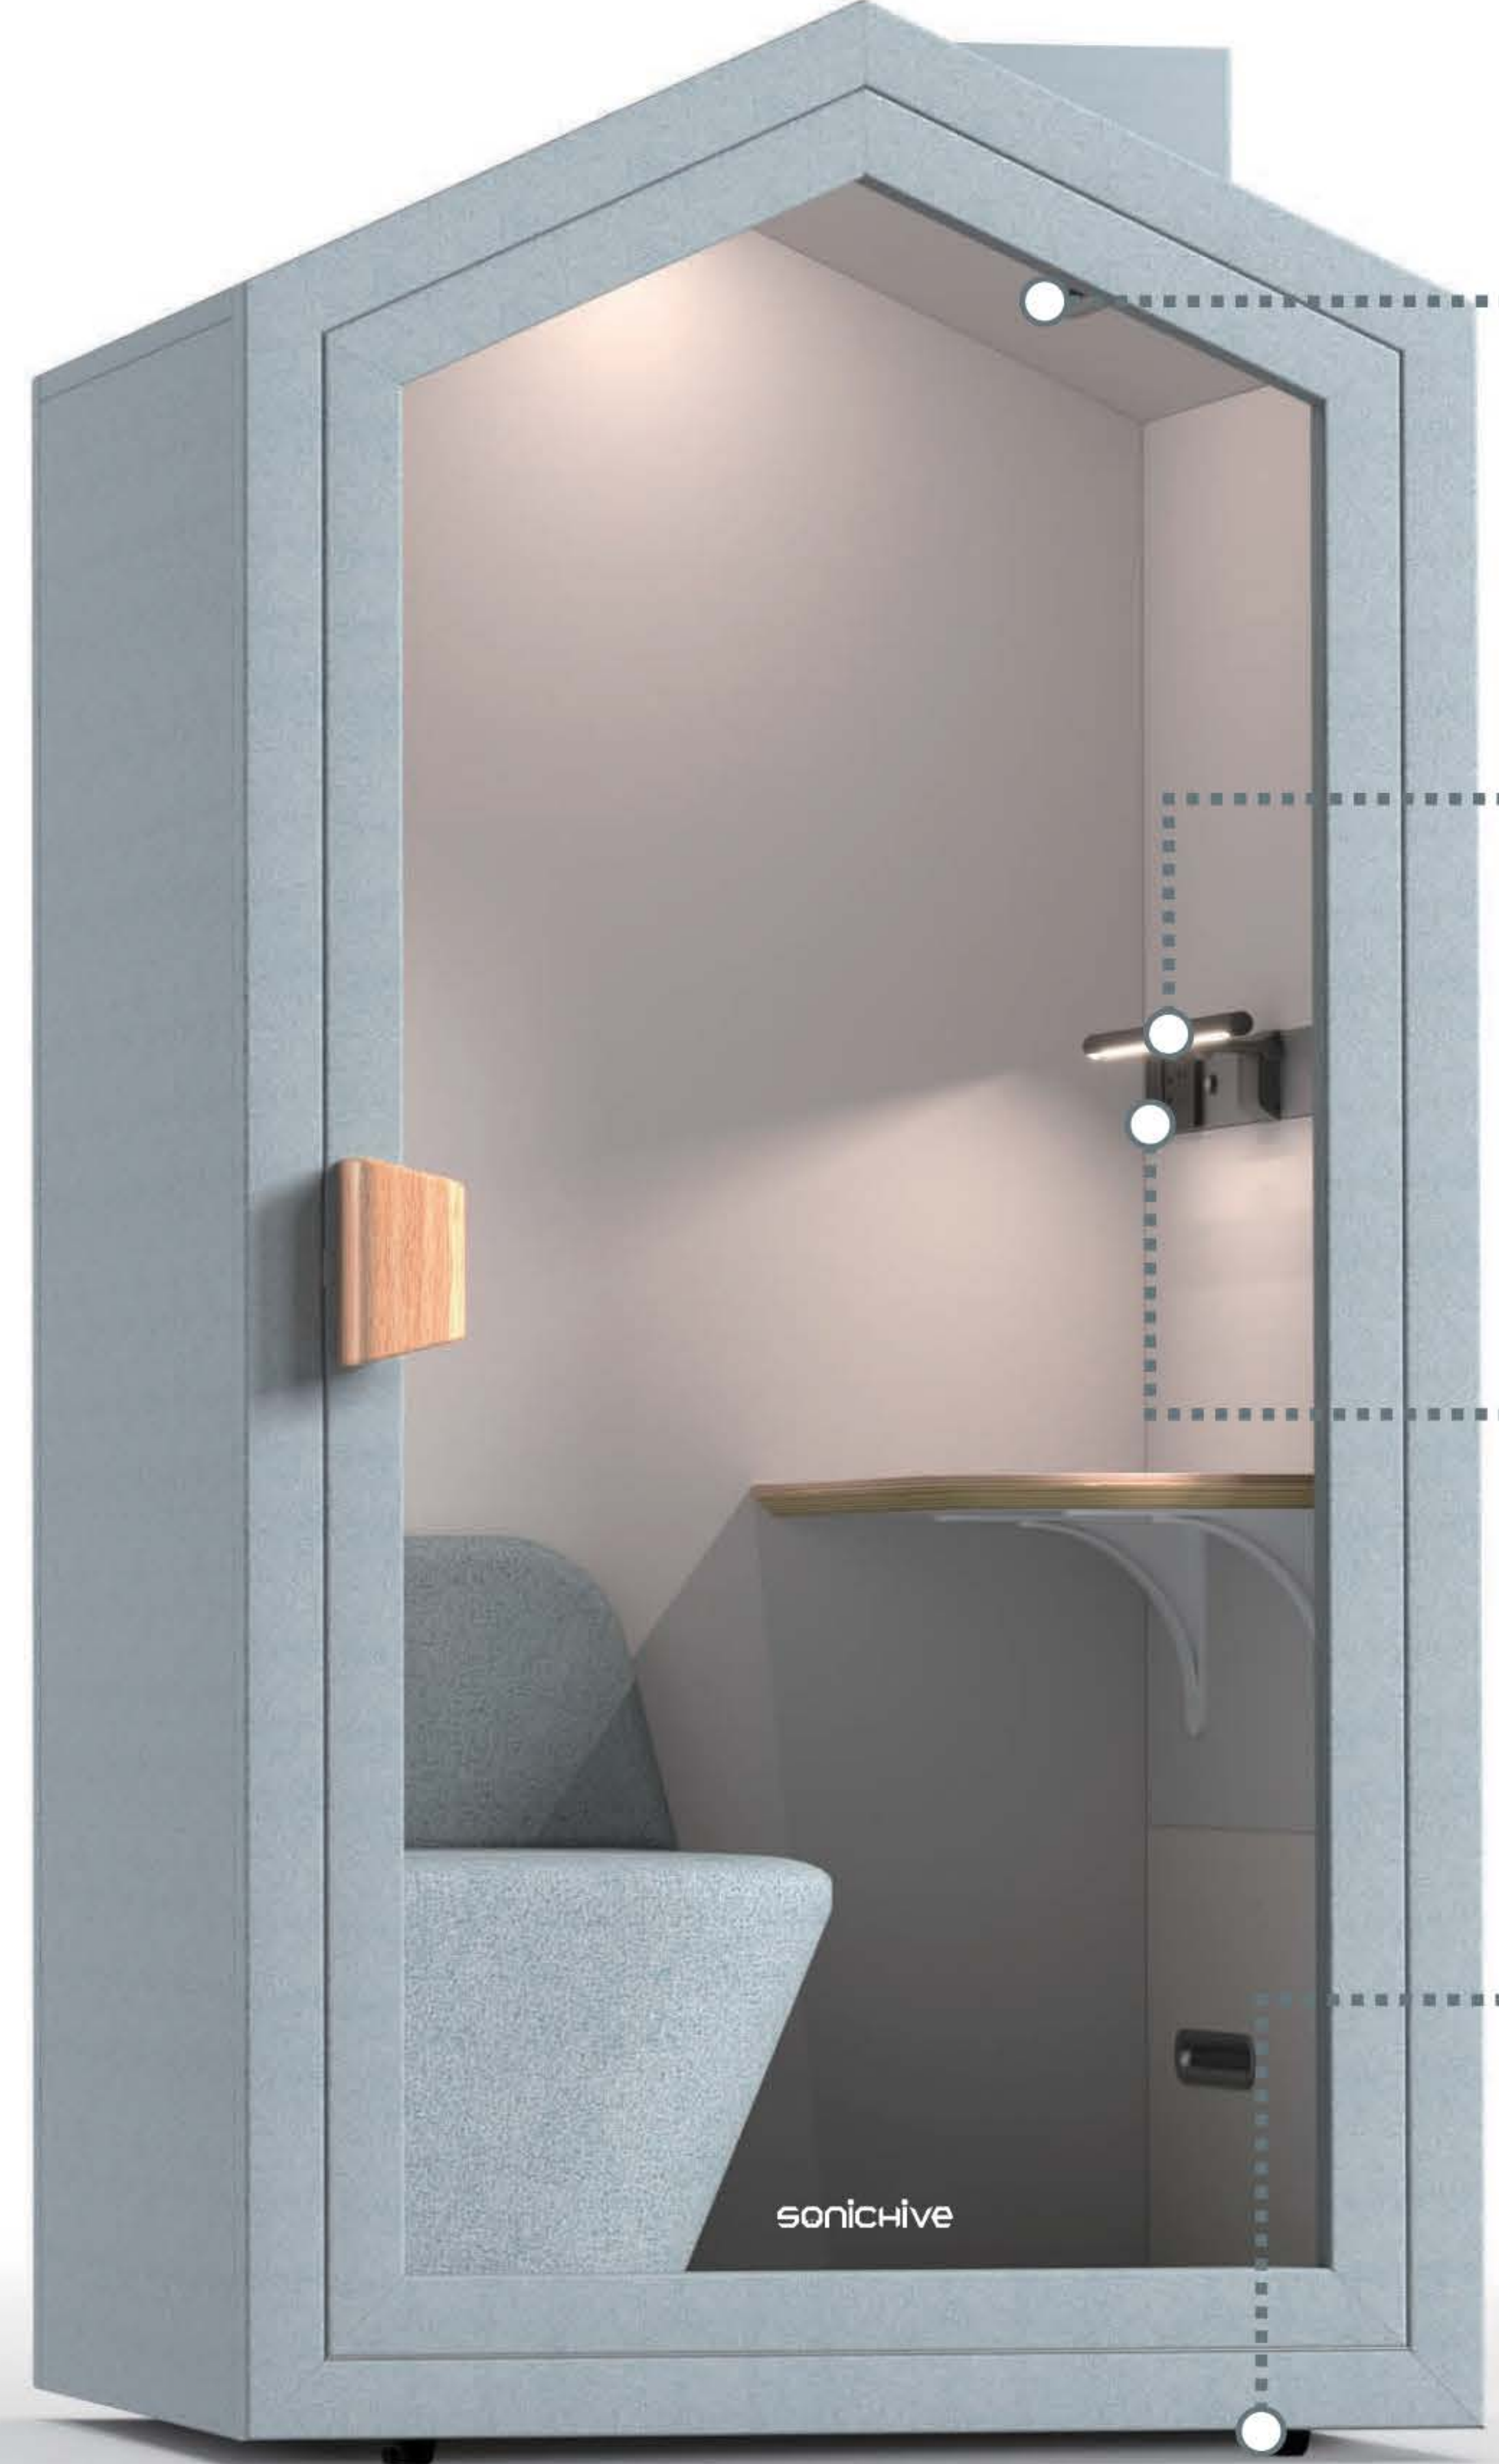

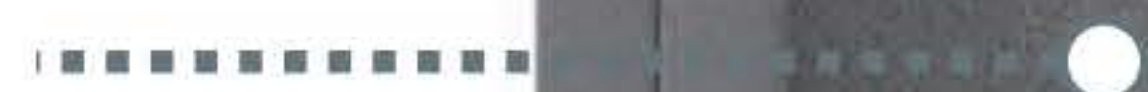

Wood handle
Tactile opening experience

Writing desk
High and low adjustable

Arm-curved sofa
Fits ergonomic curve

Fresh air circulation
Adjustable ventilation
efficiency <2 minutes 1 time

Adjustable lamp
Adjustable brightness and
color temperature

Power panel
usb + positive five-hole socket

Mobile casters
Concealed adjustment unlock

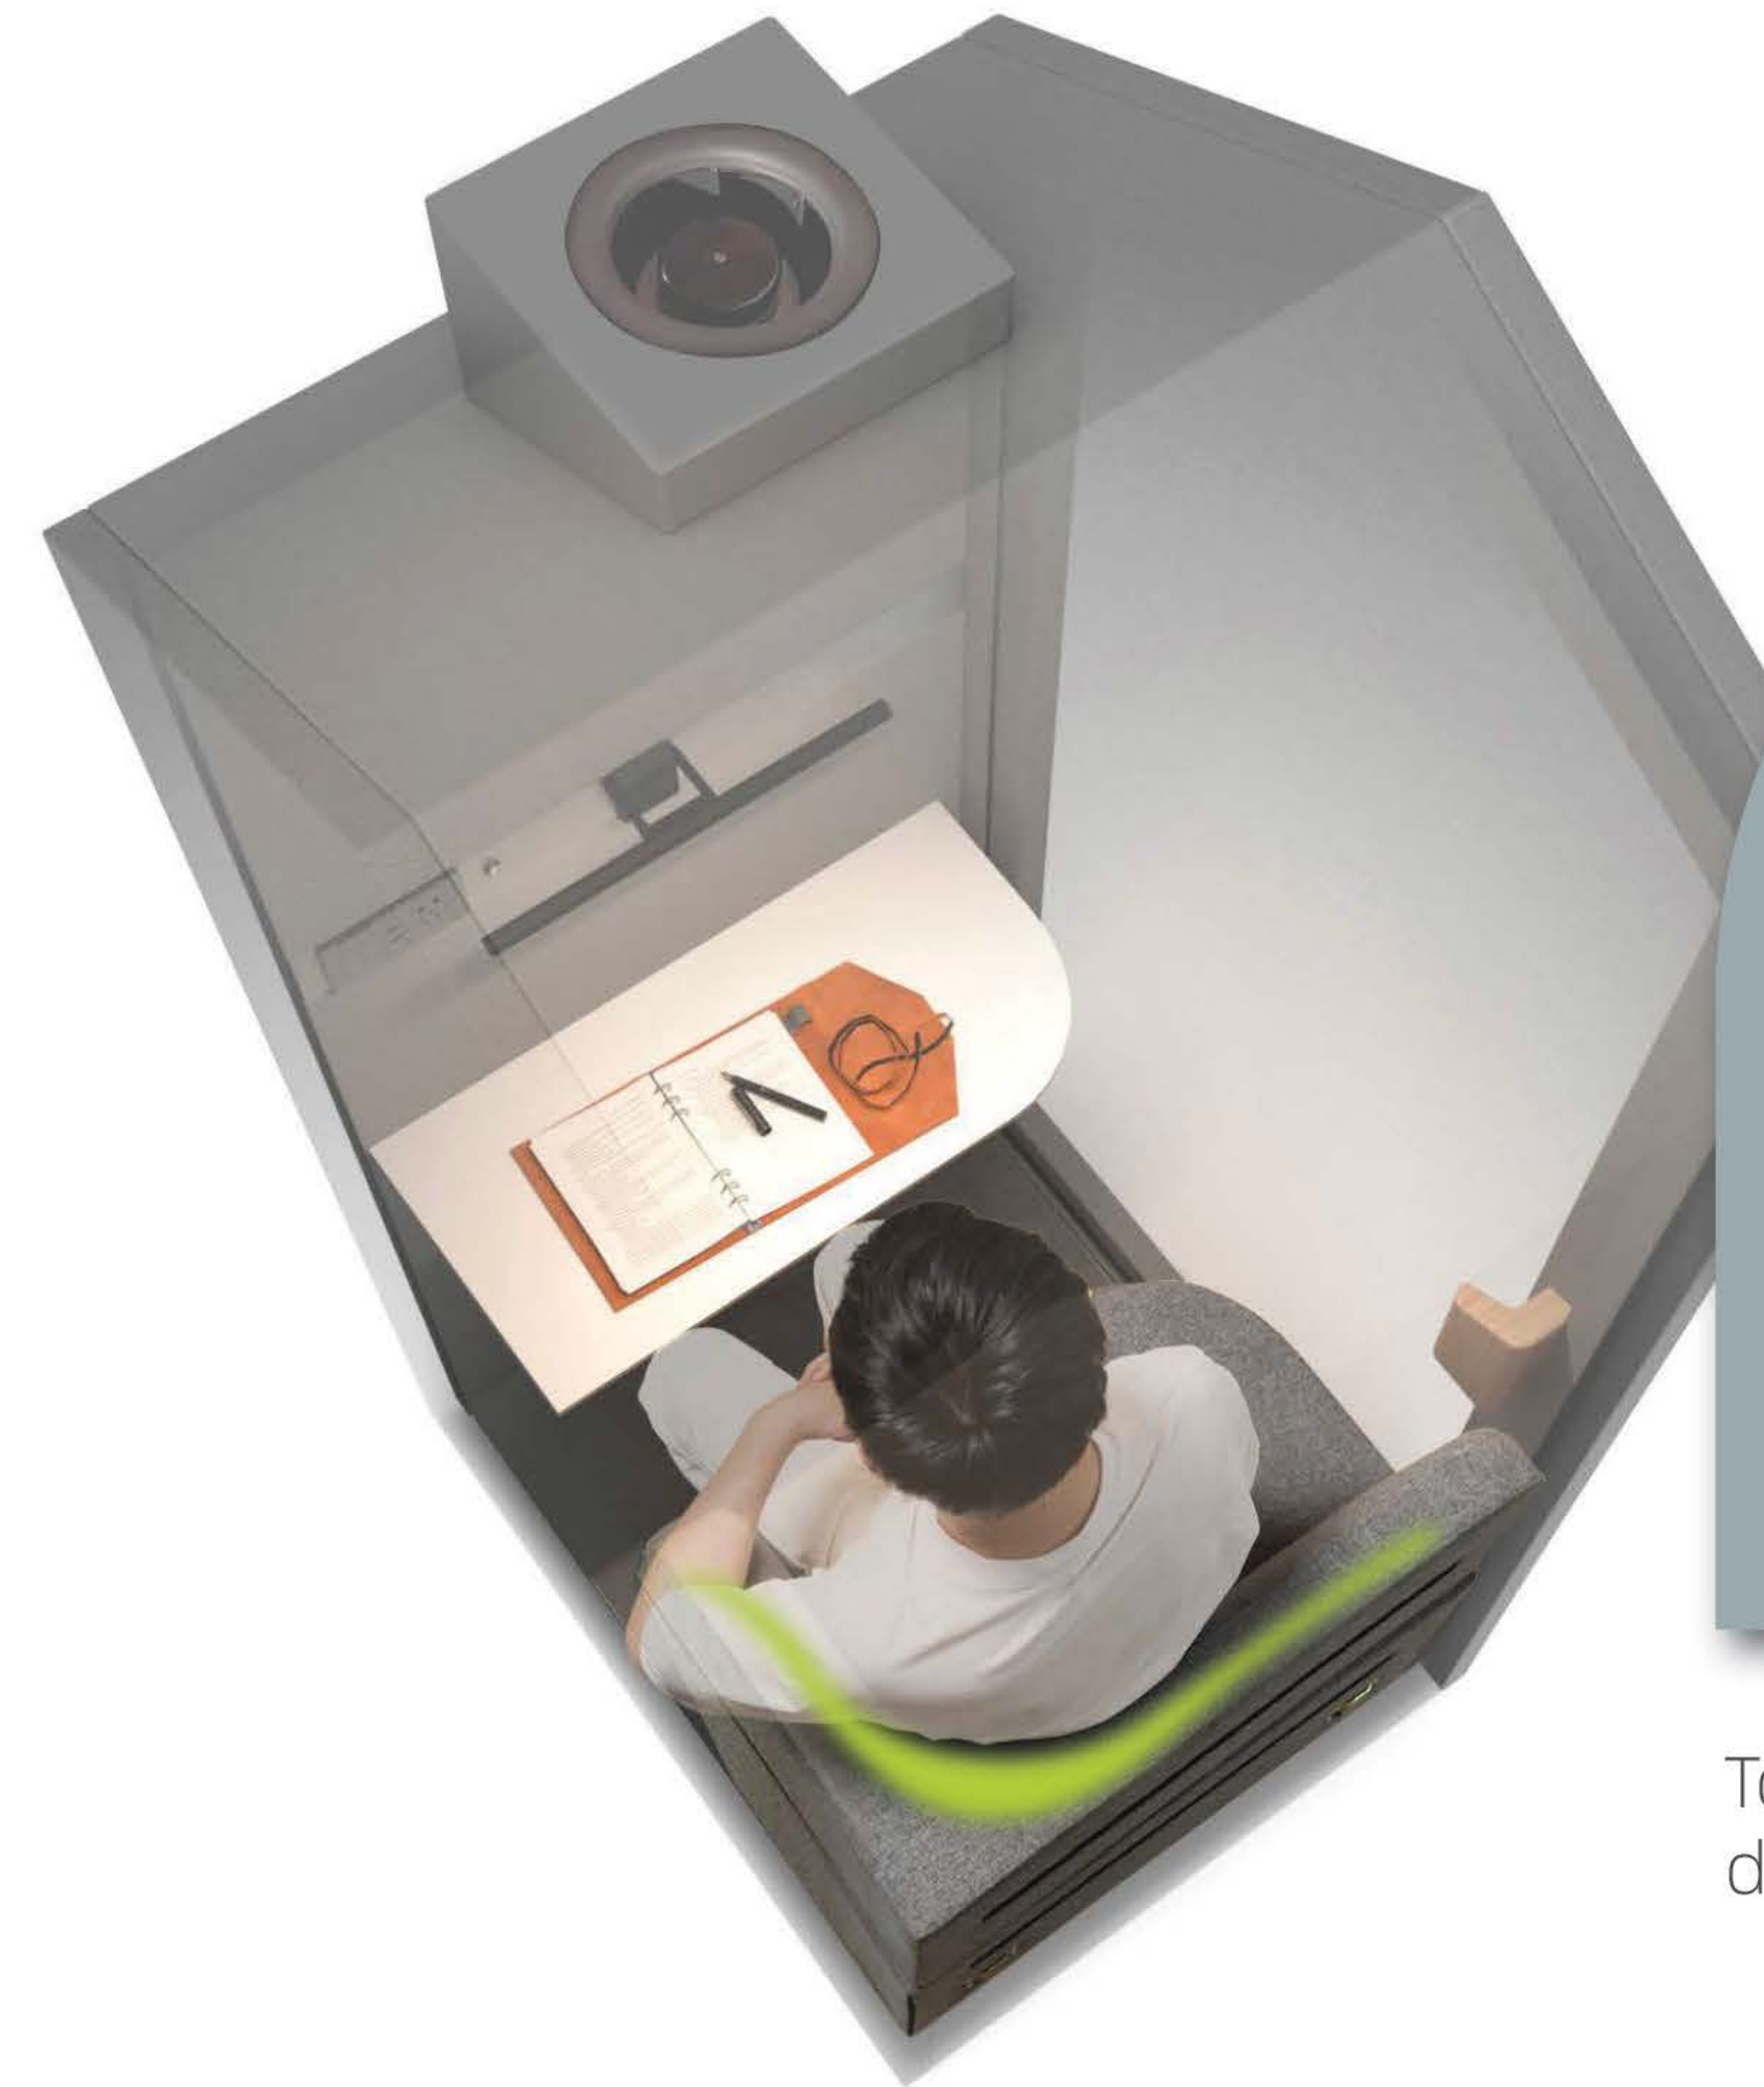

Detail Subtlety

Adjustable brightness and color temperature eye protection reading light

Ra97 high-definition finger to fit the actual "natural light"

Arm-curved sofa conforms to the ergonomic curve

Tool-free sofa backrest loading and unloading design for different postures and usage habits

Material

Safe and environmentally friendly

SONIC HIVE home silence booth, unlike the traditional furniture using mostly plywood, designed with carbon composite new materials with good soundproofing performance. It's having excellent moisture and mildew resistant, anti-deformation, Zero benzene emission, E0 grade formaldehyde and TVOC, guarding the health of the family.

SONIC HIVE is an acoustic technology company, we design and develop each acoustic products based on our understanding on environmental acoustics and following the scientific attitude of psychoacoustics and physiological acoustics. An flexible and quiet space meets your infinite creative ideas. The unconventional carbon plastic panel is its main component, SOLIDWORKS mechanical modeling guarantees the safety of modular and quick assembly of the cabin, and INSULMARSHALL ACOUSTIC acoustic simulation design accurately anticipates and achieves the booth sound insulation and acoustic environment index. It is a powerful, though not the most perfect minispaces.

Color

Morandi

Derived from the color style of Giorgio Morandi's heirloom works, the low-saturation colors map out the calmness, serenity and calmness, bringing a unique romantic and elegant atmosphere, perfectly suited to the modern home atmosphere

Product parameters

	SONIC HIVE HOME SILENCE POD
Product name	House No.1
Exterior size	1100*900*2100mm
Interior size	1000*800*1960mm
Package size	2210*630*1280mm
Booth net weight	198KG
Booth material	Carbon plastic sound insulation board, PET acoustic board, polyester fiber acoustic cloth, aluminum profile, 304 stainless steel, ABS engineering plastic
Furniture material	Birch multilayer board, polyurethane sponge, polyester sofa fabric
Power input	100-240V/50-60Hz
power output	220V 5A、5V 2.1A
Maximum power	1kW
Ambient Light	3.5W、170LM、4000k
Reading light	5W、160LM、3000K-6500K
Fan rotation speed	600-1500rpm
Air ventilation efficiency	> 30m ³ /h
Sound insulation volume	25db(±3dB)
Language intelligibility	> 0.76 STI A ⁺ studio level
Formaldehyde	0.05 (E0级) E0 level
Benzene	ND (无) E0 level
TVOC	0.29
Function configuration	Adjustable fresh air system, adjustable writing desk, Ergonomic sofa, reading eye protection light, overhead ambient light, usb2.0 integrated power supply, 220v five-hole AC power supply, hidden removable casters

Assembly

Easy to install

Six major components DIY modular design, easy assemble fasteners ensure installation within 30 mins.

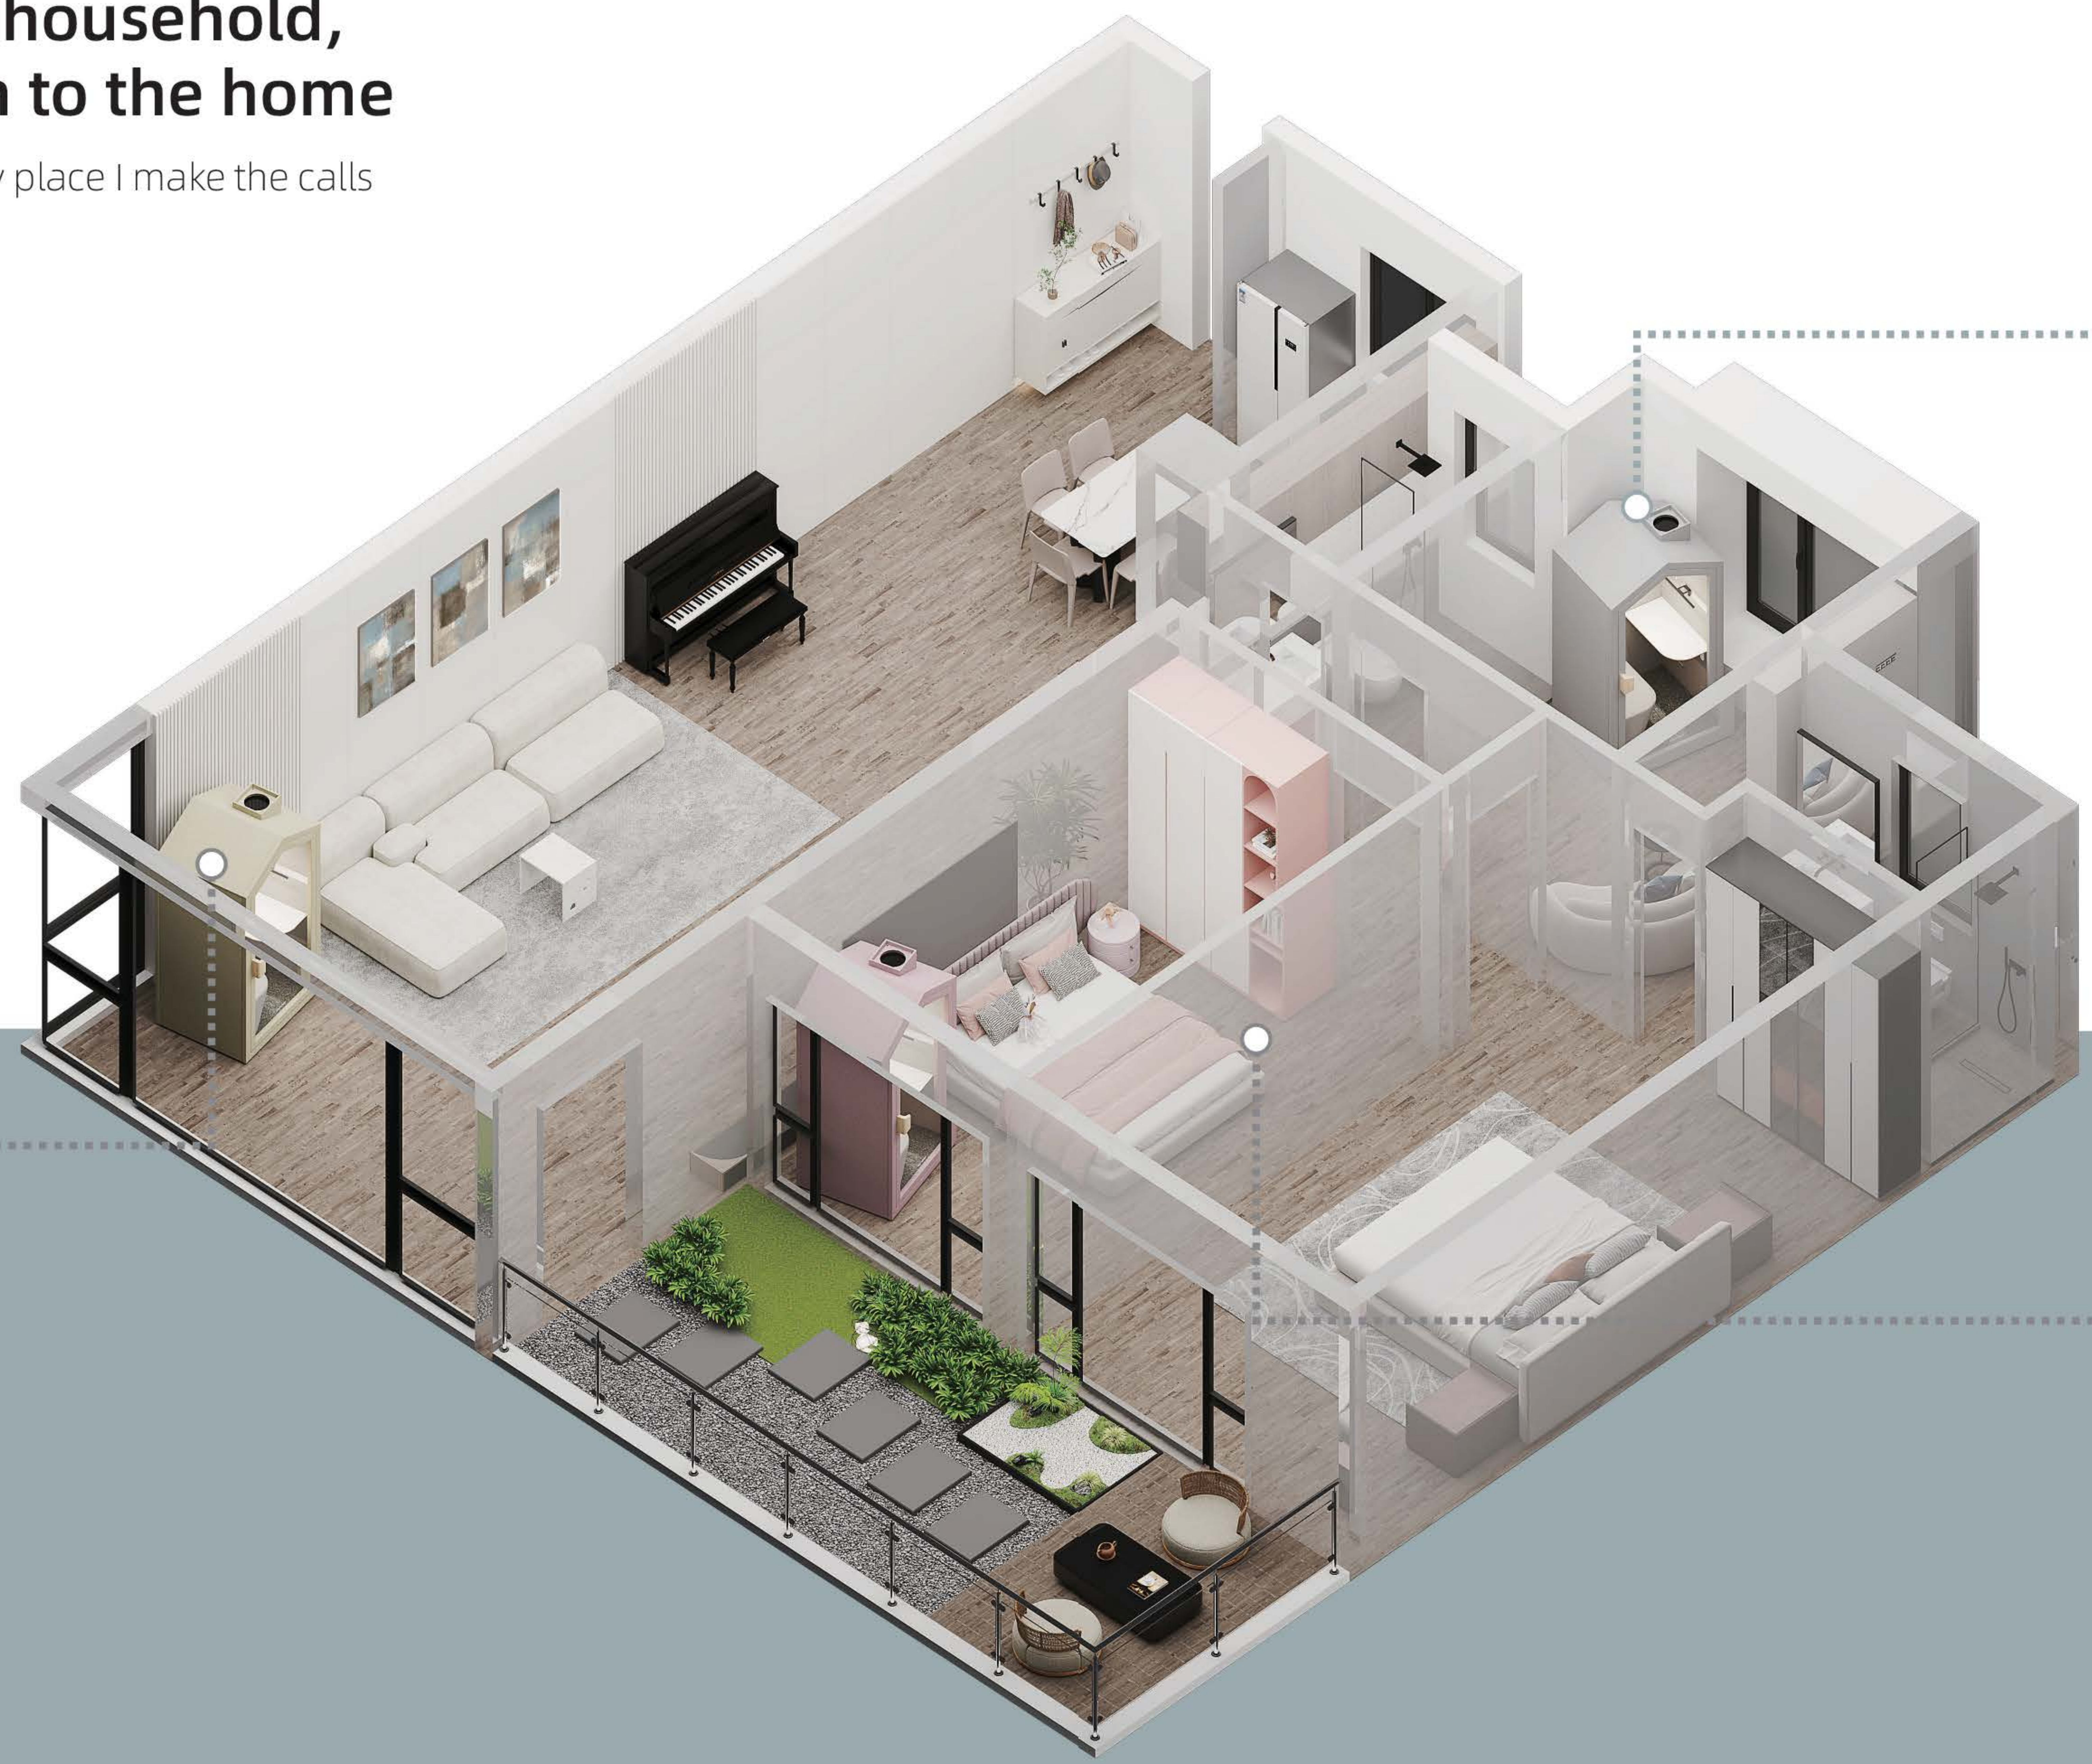

Installation fasteners,
safe and convenient
